

Come join the "Shop Talk" at Woodcraft

A group of club members are planning to meet at the Woodcraft from time to time to share woodturning tips, techniques and information. The idea is to provide an informal venue (operative word is informal) to conduct demos, share techniques and inform club members outside of the monthly meeting demonstration. Our plan is to have a small group of volunteer facilitators be available to assist members on topics of interest. Sessions can range from physical turning to information presentations to plain ol' shop talk related to woodturning (a "grab bag" agenda). Format can include a single demonstration/presentation to multiple facilitating stations. So, if you would like to participate as a facilitator or as a learner, please come to the Woodcraft on the scheduled Thursday night and join the fun! The first session will be conducted on October 23, 2008 from 6:30 p.m. to 9:00 p.m. in the small class room. As of this writing, some of the items being considered for the initial session are making a turning tool, turning captive rings, and turning fishing lures. Plans are to conduct the sessions quarterly with the option to adjust as needed. If you are interested or have an idea please contact Matt Lewis at 757-277-9226/board1@tidewaterturners.net.
